Summary

I am a Junior at Valdosta State University, and I enjoy learning concepts not taught at school whenever I can. I am hoping to land a position that allows me to learn business-ready skills and apply what I've already learned. Artificial Intelligence is what excites me most, and I love to read research papers.

Experience

Computer Science Tutor

Skilled Apple

Mar 2022 - Present (5 months +)

Creating videos to improve student knowledge and achieve better grades in Computer Science.

Discussing strategies and alternative ways of looking at problems to find efficient and elegant solutions.
